Gas customer  
Raeburn Place area  
Edinburgh

Dear resident/business owner

**Re: Essential gas mains replacement in the Raeburn Place area of Stockbridge**

I'm writing to you with an update on our ongoing project in the Raeburn Place area.

Phase one of our project, taking place in Deanhaugh Street, is progressing well and our engineers have nearly completed work in the bridge, meaning we can progress further along the road as planned.

From Sunday 19 January, our work area will move to between Leslie Place and Dean Street. Our signed diversion route for motorists and buses will remain in place.

I'd like to thank Stockbridge residents and businesses for the support and understanding we've received so far whilst carrying out complex engineering work to upgrade our gas network.

Yours sincerely

Matt Ferguson  
SGN Project Manager
